SKILLS

C++, C#, Java, Python, Swift, UiPath,

ABOUT ME

I am a third-year Software Engineering student. Throughout my university life, I aim to transform the theoretical knowledge I have gained into practical applications to gain experience and develop my skills. In this regard, I am learning Swift to improve myself, particularly in iOS mobile application development.

INTERNSHIP EXPERIENCE

Backend Developer Intern | Q&Q Academy, Kayseri, Turkey | February 2025 - Present

Developed a film recommendation application from scratch by building .NET APIs using C#.
Designed RESTful APIs in backend development, optimizing data processing and management.
Collaborated within a five member team to develop a website from scratch, taking responsibility for backend development.
Gained hands-on experience in teamwork, project management, and all stages of the software development lifecycle.

RPA Developer Intern | Aunde Teknik A.Ş., Bursa, Turkey | August 2025 - September 2025

Worked in the IT department of an automotive seat cover factory, focusing on process automation.
Designed and tested RPA workflows using UiPath to streamline data processing and reporting tasks.
Collaborated with the IT team to integrate RPA solutions into existing systems and troubleshoot technical issues.

Mobile Application Intern | Türk Ticaret Net, Bursa, Turkey | July 2024

Developed and tested mobile applications under the guidance of senior developers.
Contributed to the design and implementation of features for iOS applications using Swift.
Assisted in debugging and optimizing the performance of mobile applications.

PROJECTS

Readify: iOS application designed to improve reading speed and focus.
E-Commerce Platform: Designed and developed an e-commerce website. Managed Meta ads and audience optimization.
Campus System: Developed a user-friendly event tracking website for my university.

CLUBS

Loop Software and Idea Development: Project Developer
Engineer's Minds Club: Project Coordinator
Google Developer Students Club: Organization And Mobile Core Team Member

CERTIFICATIONS AND COURSES

Course C (Udemy, Mobile apps with Swift (Udemy), 100 Days Of SwiftUI, RPA

LANGUAGES

English: B2

EDUCATION

Istanbul Dogus University | Bachelor of Science, Software Engineering

2024 - present
